

## Web Developer (m/f/d)

**LOCATION**  
Cluj-Napoca

**COMPANY**  
ARRK Research & Development  
SRL

**CONTRACT TYPE**  
Full-time

**Form of Work**  
Remote

### WHAT TO EXPECT

- The Digitalization & Software division, with an approximate headcount of 100, is renowned for its innovative technologies, challenging project portfolio, horizontal organizational structure, and a collegial international team atmosphere.
- Take part in crafting and sustaining high-performance web applications tailored for leading automotive manufacturers. Promote and implement best practices to uphold the highest standards in software development. Showcase a profound understanding of web architecture, collaborating within cross-functional teams dedicated to web application projects. Contribute to the construction of CI/CD pipelines and collaborate closely with clients to define and detail project concepts.

### YOUR TASKS

- Development and maintenance of high-performance web applications for leading automotive manufacturers.
- Follow and spread best practices for high quality software development.
- Understanding of web architecture.
- Working on web applications in a cross-functional team.
- Support with the development of CI/CD pipelines.
- Working on concepts and specifications in coordination with customers.

### YOUR PROFILE

- University degree in computer science, engineering or natural sciences.
- Advance knowledge of Node.js and/or Java Spring Boot, Rest API, SQL and NoSQL databases.
- Good knowledge of Front-End technologies like Angular and/or React.
- Experience with Linux, Docker, Kubernetes, AWS.
- Knowledge of quality standards and professional methods in software development, such as Clean Code, TDD, SOLID Principles, etc.
- Good communication skills (also in English, German is a plus).
- Interest in the automotive industry is an advantage.
